CIA LETTERHEAD

DRAFT 23 September 1981

Ms. Barbara Mishkin
Deputy Director
President's Commission for the Study
of Ethical Problems in Medicine
and Biomedical and Behavioral Research
2000 K Street, N.W.
Suite 555
Washington, D.C. 20006

Hear Ms. Mishkin:

In response to your memorandum of 19 August 1981, the Central Intelligence Agency funded four extramural research projects involving 94 human subjects at four institutions during FY-80. In each instance, the proposed research was approved by an extramural Institutional Review Board. This approval was further reviewed by the Department of Health and Human Services (then HEW). No intramural biomedical or behavioral research projects involving human subjects were conducted during FY-80.

I trust that this information will be of assistance to you and to the Commission.

Sincerely,

Liaison Officer to the President's Commission
